Instrument-by-Instrument Analysis

-- FOREX --

EUR	S1: Bearish IDX 12	S2: Neutral IDX 49	DIVERGE
-----	--------------------	--------------------	---------

4-Week Trend: S1 flipped from net long 16,317 (4 wks ago) to net short 8,926 now. COT Index 12 (Bearish). Lev Fund delta turned positive (short-covering or new longs). Asset Managers closing longs. S2 NonComm net +33,513 -> +34,353 (+840). COT Index 49 (Neutral).

Analysis: Source divergence: CFTC Bearish (IDX 12) vs Tradingster Neutral (IDX 49). Monitor for one to confirm the other before full conviction. Lev Fund weekly delta crossed positive -- covering or fresh long entry.

This week (Jun 23):

Bearish lean from CFTC (IDX 12) but Tradingster diverges (Neutral). Trade S1 direction with reduced size until NonComm confirms.

Next week (Jun 30):

Key watch for Jun 30: will S2 NonComm follow S1 into Bearish? Next CFTC release will clarify.
